# Supporting infrastructure delivery across South Africa

The South Africa Infrastructure Expo, featuring Transport Evolution Africa and running alongside Big 5 Construct South Africa, brought together key stakeholders from the infrastructure, transport and construction sectors to connect, share insights and support project delivery across South Africa.

The second edition, held from 9 to 11 June 2026, featured 86 exhibitors representing countries including Canada, China, Namibia, South Africa, United Arab Emirates (UAE), United Kingdom.

A total of 29 CPD-certified sessions took place across the South Africa Infrastructure Summit, Infra360 sessions and Transport Evolution talks, led by 51 speakers. These sessions were attended by over 700 industry professionals, each earning points towards their annual training and development targets.

This event brings together leaders from infrastructure, transport, construction, government and the private sector to shape South Africa's built environment. It provides a platform to showcase the country's project pipeline, connect investors with opportunities, and highlight the technologies that support delivery, growth and innovation.

**Sihle Zikalala**

Deputy Minister, Department of Public Works and Infrastructure, South Africa  
Government Official

## Welcoming 3,009 buyers, project managers and key government representatives in infrastructure and transport.

The exhibition was attended by professionals actively involved in infrastructure and transport delivery across South Africa, including:

# CEO Forum

Supported by:

Mobility Partners

The CEO Forum brought together more than 70 CEOs and senior executives from the infrastructure and transport sectors across Southern Africa for confidential, peer-level discussions on industry priorities, market developments and investment opportunities.

## Key sessions explored:

- Infrastructure as the foundation of Africa's development
- Building the business case for African integration
- Navigating Africa's complexity in a rapidly evolving world
- Infrastructure funding pathways and investment models
- African trends and policy developments in micro-mobility
- AI in supply chain: A CEO's playbook
- The future of transport and logistics in South Africa

Held under the Chatham House Rule, the forum enabled open dialogue, valuable insights and meaningful connections among senior decision-makers.

## Participating CEO brands included:

The South Africa Infrastructure Summit convened leaders from government, finance and project delivery to discuss infrastructure across the full lifecycle, with a focus on investment, project execution and sector priorities spanning transport, energy, water, digital and urban development.
